

Game Changing Compliance Solutions

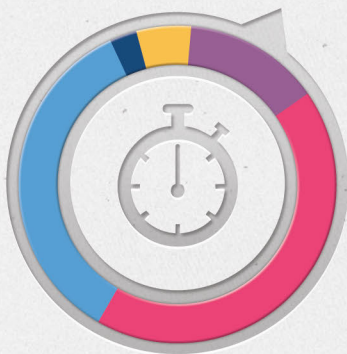

Through Geotab's IOX expansion technology that connects to the GO6, you can add-on a Garmin display for driver dispatching and compliance management. Geotab has combined the power of MyGeotab with HOS service logging to help automate the process for business owners, with up-to-the-minute insights.

Introducing HOS Integration

Integration Features:

- + Truck Routing
- + Driver E-Logs
- + Road Speed Change Alerts
- + Advanced Sharp Turn Alerts
- + Stop Light Camera Warnings
- + Recorded Duty Status Changes
- + Drive and Duty Time Audits
- + Eliminates Form and Factor Violations
- + Organized Electronic Logs

- 14** hour duty rule
- 11** hour driving rule
- 60/70** hour duty limit
- 34** hour reset
