- + Customizable Dashboard Reports

Devices

- + Garmin Navigation
- + Satellite Tracking
- + Hours of Service (HOS)
- + Third Party Devices

Software

- + MyGeotab: Web-hosted Software
- + Modern Coding: HTML5
- + Software Development Kit (SDK)
- + User-Defined Security Clearance

Transforming Fleet Management

Choosing how your company will grow in the future requires choosing a platform that can grow with you. With the Geotab IOX, you can expand your Geotab GO6 device to add even more capabilities, such as a Garmin for dispatching, Iridium Satellite for tracking in areas with little to no cellular coverage, record auxiliary activity for enhanced productivity, and more.
